

Life Donor

An Application that reduces your efforts

INTRODUCTION

Life Donor

An adequate amount of blood is needed in all health care facilities to meet the urgent need for patients facing trauma and other lifesaving procedures, such as blood transfusions – which saves millions of lives each year. But some time its very hard to find the blood type in need of time. Many people suffer due to unavailability of wright kind of blood in case of emergency. So we the Life Donor has come with the Solution that can help people find the right kind of blood in its near by area through smart tracking and notification method.
